

CLAIMS

What is claimed is:

1. An apparatus, comprising:
a housing;
a first panel coupled to the housing and including a handle; and
a second panel coupled to the housing, wherein when the second panel is unfolded from the housing a stand and a keyboard are exposed.
2. The apparatus of claim 1, wherein the housing includes a front side and a back side, and wherein the first panel is coupled to the housing at the back side.
3. The apparatus of claim 2, wherein the first panel is affixed to the back side.
4. The apparatus of claim 3, wherein the first panel includes a guiding mechanism to guide the handle.
5. The apparatus of claim 4, wherein the second panel is coupled to the housing at the back side and below the first panel.
6. The apparatus of claim 5, wherein the second panel is coupled to the housing at substantially near bottom of the back side of the housing using a hinge mechanism.
7. The apparatus of claim 6, wherein the hinge mechanism is to assist with folding or unfolding of the second panel relative to the back side of the housing.

8. The apparatus of claim 7, wherein the second panel includes the stand and a keyboard tray which includes the keyboard.
9. The apparatus of claim 8, wherein the keyboard tray wrapped by the stand and can be slid into or out of the stand.
10. The apparatus of claim 9, wherein the keyboard is a wireless keyboard.
11. The apparatus of claim 9, wherein the keyboard tray further includes a remote controller.
12. The apparatus of claim 11, wherein the remote controller is capable of sending infrared (IR) signals.
13. The apparatus of claim 11, wherein the remote controller includes a mouse pad.
14. The apparatus of claim 11, wherein the keyboard tray further includes a wireless telephone handset.
15. The apparatus of claim 14, wherein the wireless telephone handset is to include a Bluetooth communication module.
16. The apparatus of claim 9, wherein the front side of the housing includes a display screen.

17. The system of claim 16, wherein the front side of the housing further includes a fingerprint sensor.

18. The apparatus of claim 17, wherein the front side of the housing further includes a video camera.

19. The apparatus of claim 18, wherein the front side of the housing further includes one or more speakers.

20. The apparatus of claim 19, wherein the front side of the housing further includes an array of one or more microphones.
